

Commercial Proposal

Quality Gates™ — Custom Development & Licensing Agreement

Prepared for: Escape Trailer Industries Ltd. **Prepared by:** Voxtern Solutions Inc. **Date:** March 28, 2026 **Proposal #:** VTX-2026-002 **Valid until:** April 30, 2026

1. Executive Summary

Voxtern Solutions Inc. ("Voxtern") is pleased to present this proposal for the development and deployment of **Quality Gates™** — a digital quality inspection and control system — tailored specifically for Escape Trailer Industries Ltd. ("Escape Trailer").

Quality Gates™ replaces the existing paper-based quality inspection system currently in use at Escape Trailer with a modern, mobile-friendly digital platform. It enables real-time defect tracking, inspection workflows, rework management, and data-driven quality analytics.

As an **Early Adopter Partner**, Escape Trailer receives preferential pricing and direct influence on product development priorities.

2. Product Overview

What is Quality Gates™?

Quality Gates™ is a quality inspection and control platform designed for manufacturing environments. It enables organizations to:

- **Digitize inspection checkpoints** across production stations with standardized criteria
- **Capture defects in real-time** with photo/video documentation and categorization
- **Track rework** from identification through resolution with full accountability
- **Manage punch lists** for systematic issue tracking and closure
- **Analyze quality trends** with dashboards, Pareto charts, and station-level metrics
- **Ensure compliance** with documented inspection records and audit trails

Key Features

Feature	Description
Inspection Workflows	Station-based quality gates with configurable checklists
Defect Capture	Log defects with category, severity, location, and media attachments
Media Documentation	Photo and video capture directly from mobile device camera
Punch List Management	Track open issues through assignment, action, and closure
Rework Tracking	Monitor rework items from identification to sign-off
Dashboard & Analytics	Real-time quality metrics, defect trends, Pareto analysis
Role-Based Access Control	Admin, Inspector, and Supervisor roles with appropriate permissions
Mobile-First Design	Optimized for tablet and phone use on the production floor
Reporting & Export	Generate quality reports in PDF and Excel formats
Audit Trail	Complete history of all inspections, edits, and sign-offs

Current System vs. Quality Gates™

Capability	Current (Paper)	Quality Gates™
Inspection records	✗ Paper forms, filed manually	✓ Digital, searchable, instant
Defect photos	✗ Separate camera, manual filing	✓ In-app capture, auto-linked
Rework tracking	✗ Verbal/whiteboard	✓ Systematic with accountability
Trend analysis	✗ Manual counting	✓ Automated dashboards
Multi-user access	✗ One clipboard per station	✓ 15+ concurrent inspectors
Data retrieval	✗ Dig through paper files	✓ Search by unit, date, defect type
Compliance & audit	✗ Paper trail, risk of loss	✓ Digital audit trail, backed up

3. Scope of Work

Phase 1 — Core Development (Weeks 1–2)

Deliverable	Description
Backend API	Node.js/Express server with database
User authentication	Secure login with role-based access (Admin, Inspector, Supervisor)
Inspection workflow engine	Configurable quality gates per production station
Defect logging	Defect entry with category, severity, location, and notes
Media capture	Photo upload and camera integration for defect documentation
Punch list	Issue tracking with assignment and status management

Phase 2 — Enhancement (Weeks 2–3)

Deliverable	Description
Rework tracking	Full rework lifecycle — identify, assign, action, verify, close
Dashboard & analytics	Real-time quality metrics, defect Pareto, station performance
Reporting module	PDF and Excel report generation
Admin panel	User management, station configuration, checklist builder
Data export	Full data export in standard formats
Audit trail	Complete change and inspection history

Phase 3 — Deployment & Handover (Weeks 3–4)

Deliverable	Description
Production deployment	Hosted on dedicated server, SSL secured
Station setup	Configuration of all quality gates and inspection checklists
User setup	Creation of all inspector and supervisor accounts
Training session	1-hour virtual training for administrators and inspectors
Documentation	User guide, inspector quick-reference card, admin documentation

4. Pricing

Early Adopter Partner Pricing

As a valued Early Adopter Partner, Escape Trailer receives significant preferential pricing compared to standard market rates.

One-Time Development Fee

Item	Amount
Custom development & deployment	\$6,990 CAD
(Standard market rate: \$18,000 CAD)	61% Early Adopter discount

Monthly License Fee

Item	Details	Amount
Quality Gates™ License	Up to 15 users	\$150 CAD/month
Additional users	Per user, per month	\$12 CAD/user/month

Monthly License Includes:

-  Application hosting and maintenance
-  Data backups (daily)
-  Software updates and improvements
-  Technical support (email, business hours)
-  Up to 15 named users

5. Payment Terms

Milestone	Amount	When
Project kickoff	\$3,495 CAD (50%)	Upon agreement signing
Delivery & acceptance	\$3,495 CAD (50%)	Upon production deployment
Monthly license	\$150 CAD/month	Starting from deployment date

- All amounts in Canadian Dollars (CAD), plus applicable taxes
 - Invoices payable within 30 days of issue
 - Monthly license billed on the 1st of each month
-

6. Timeline

Week	Milestone
Week 1	Project kickoff, backend development, inspection workflow engine
Week 2	Frontend development, defect capture, media integration, punch list
Week 3	Rework tracking, dashboards, reporting, admin panel, testing
Week 4	Production deployment, station setup, training, handover

Estimated completion: 3–4 weeks from agreement signing.

7. Terms & Conditions

7.1 Intellectual Property

- All software, source code, and related intellectual property developed under this agreement remain the **exclusive property of Voxtern Solutions Inc.**
- Escape Trailer is granted a **non-exclusive, non-transferable license** to use Quality Gates™ for the duration of the active license agreement.
- Escape Trailer may not sublicense, resell, distribute, or reverse-engineer the software.

7.2 Data Ownership & Privacy

- All data entered into Quality Gates™ by Escape Trailer remains the **exclusive property of Escape Trailer.**
- Voxtern will not access, share, sell, or use Escape Trailer's data for any purpose other than providing the contracted services.
- Upon termination, Escape Trailer will receive a complete export of all their data in standard formats (CSV/Excel/PDF).
- Voxtern will permanently delete Escape Trailer's data within 30 days of contract termination upon written request.

7.3 Confidentiality

- Both parties agree to maintain confidentiality of all proprietary information shared during the engagement.
- This includes but is not limited to: business data, employee information, quality records, pricing terms, and technical specifications.

7.4 License Term & Termination

- The monthly license has a **minimum term of 12 months** from the deployment date.
- After the minimum term, either party may terminate with **60 days written notice**.
- Upon termination, access to the application will be revoked and data export provided as per Section 7.2.

7.5 Service Level

- **Uptime target:** 99% monthly availability (excluding scheduled maintenance)
- **Support response:** Within 24 business hours for non-critical issues; within 4 business hours for critical issues
- **Scheduled maintenance:** Communicated at least 48 hours in advance, performed outside business hours when possible

7.6 Warranty

- Voxtern warrants that the software will perform substantially in accordance with the agreed specifications for a period of **90 days** following deployment.
- Defects reported within the warranty period will be resolved at no additional cost.

7.7 Limitation of Liability

- Voxtern's total liability under this agreement shall not exceed the total fees paid by Escape Trailer in the **12 months preceding any claim**.
- Voxtern shall not be liable for indirect, incidental, or consequential damages.

7.8 Modifications & Change Requests

- Feature additions or modifications beyond the agreed scope will be quoted separately.
 - Minor adjustments and bug fixes are included in the monthly license.
-

8. Acceptance

This proposal is valid until **April 30, 2026**. To proceed, please sign below and return a copy to Voxtern Solutions Inc.
